## Erratum

In the publication of this article [1], there are two errors in Table 1 Case report journals.

1. The error: 'The journal title *BMJ Case Reports* has no value in the PubMed Indexed column' Should instead read: '*BMJ Case Reports* in the PubMed Indexed column should have indicated "Yes" because it is PubMed indexed'

2. The error: 'The journal title *BMJ Case Reports* has value "No" in the Open access column' Should instead read: '*BMJ Case Reports* in the Open access column should have indicated "Optional" because it does have an option for open access for an extra fee'

This has now been included in this erratum.
