What are your plans this morning?

There's still time to register for 'Insurance implications of an automated vehicle world'

Friday 21 September 2018 at 11:00 AM AEST

Join us for this **FREE** Australia & New Zealand Driverless Vehicle Initiative (ADVI) webinar. This is the fourth episode in our Hypothetical Webinar Series.

The webinar will cover three core topics/questions:

1. What is the role of insurance in the future mixed fleet transport system where automated vehicles and human driven vehicles interact together on the road?
2. Do today's insurers want to insure high level automated driving features?
3. What is the role of motor accident injury schemes in the today's trial environment and later, the mixed fleet environment?

Our four expert panellists are:

Tania Leiman

Dean of Law, Flinders University

Tom Lunn

Senior Policy Advisor, Insurance Council of Australia

Marcus Burke

Project Director, Compliance and Technology, National Transport Commission

Cecilia Warren

Director, Research & Development, Innovation, IAG Customer Labs

Most importantly we want to hear from you, the audience, send your questions and comments to the panellists using the live chat. Let's push the limits, get ready with your

questions!

Join us today at 11:00 AM AEST.

Please note - this session will commence at 11:00 AM AEST (Australian Eastern Standard Time). As time zones will vary for attendees, please check your own time zone. It is recommended that you connect to the webinar 15 minutes prior to allow sufficient time for potential connection delays.

Registration for this **FREE** webinar is essential.

Simply click on the button below and create your free account to register.

After registering, you will be sent a reminder email and a link.

Recording - The recording will also be made available to registrants who are unable to attend the live broadcast.
